Non-member	€ 1.600,00	€ 800,00
Additional travel costs if a site visit is needed	Individually	calculated

VAT

ECTN is a legal entity under Belgian law. We have been granted the VAT status of 'Regime de franchise de TVA' by the Belgian authorities.

Our VAT number is: **BE 478.887.515**. This must appear on all our invoices.

All invoices sent to Belgian and other EU Member State countries must include the VAT number of the client.

The following cases for issuing invoices have to be distinguished (although in all cases VAT is not applied):

a) The client is a Belgian university

VAT should not be applied. The phrase 'Régime particulier de franchise des petites entreprises' should be written on the invoice.

b) The client is a university based in an EU member state outside Belgium with a valid VAT number

VAT should not be applied. The phrase 'Autoliquidation' or 'Reverse charge' should be written on the invoice.

c) The client is a university based in an EU member state but does not have a valid VAT number (it does not appear in the VIES database)

VAT should not be applied. The phrase 'Régime particulier de franchise des petites entreprises' should be written on the invoice.

d) The client is based outside the EU

VAT should not be applied. The phrase 'Régime particulier de franchise des petites entreprises' should be written on the invoice.

e) The client is an international consortium, not a legal entity

ECTN issues an invoice to the university of the coordinator of the consortium. VAT should not be applied. The phrase written on the invoice depends on the location of the university of the coordinator (see above).
