

3rd STEM-CPD Summer School

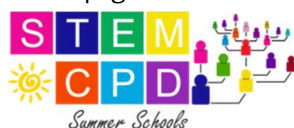

15-19 October 2023
University of Aveiro, Portugal

The STEM-CPD Summer School is dedicated to continuous professional development (CPD) in teaching and learning in higher education STEM disciplines (Science, Technology, Engineering, and Mathematics). This event is intended for lecturers who are committed to student-centered teaching and aims to develop their university teaching competences with an international dimension. The program enables participants to implement professional development activities for lecturers at their respective universities, thereby enhancing the quality of education. Upon successful completion of the STEM-CPD Summer School, participants will be awarded the CPD Ambassador certificate and gain the opportunity to join the international CPD Ambassadors community.

3rd STEM-CPD Summer School

15-19 October 2023
University of Aveiro, Portugal

First circular

Dear Colleagues,

We are pleased to announce the upcoming STEM-CPD Summer School, an exceptional opportunity for university lecturers in STEM disciplines (Science, Technology, Engineering, and Mathematics) who are dedicated to student-centered teaching and learning. This immersive program aims to empower participants to enhance the quality of education at their institutions

Please find below the key details of the Summer School:

PARTICIPANTS: The Summer School is open to university lecturers in STEM disciplines who are willing to promote and organize activities for continuous professional development among their fellow lecturers.

GOALS & OUTCOMES: Participants will develop university teaching competences in international dimension, enabling them to implement professional development activities that elevate the quality of teaching and learning at their respective universities. Additionally, they will have the opportunity to join the international CPD Ambassadors community.

PROGRAM & METHODS: The STEM-CPD Summer School spans 4.5 days and offers a range of inspiring interactive workshops, collaborative group sessions, and powerful discussions. The study program is based on active learning and is disciplinary and interdisciplinary-oriented.

CERTIFICATION: Participants who successfully complete all parts of the Summer School will be awarded a CPD Ambassador Certificate, recognizing their dedication and achievements.

APPLICATION: The application form, as well as more information about the fees and costs, can be accessed on the website. The scientific committee of the Summer School will select a maximum of 24 participants based on the strength of their applications. The application deadline is **July 10th, 2023**.

We encourage you to seize this opportunity to collaborate with like-minded academics, and contribute to the advancement of education and quality of teaching and learning at your institution.
