#### ECTN Elections for 2023-2026 term

At the 2023 ECTN General Assembly in Amsterdam on 14-15 April there will be **elections for President-Elect, two members of the Administrative Council, and a member of the Quality Standards in Teaching Committee**. *Nominations for these important positions are invited from all members of ECTN*. The nomination procedure and the election rules will be sent to all members in the next days. When you receive these documents, please distribute them widely within your institution. Any member of the ECTN association can be nominated for these positions and *the deadline for nominations is ten (10) days before the day of the General Assembly*.

The President-Elect will be a member of the Administrative Council for one year, acting as Vice-President and then become the ECTN President for the following three years followed by a period of two years as Vice-President.

Members of the Administrative Council are elected for a period of three years after which they can be re-elected for one more three-year period.

Please consider applying for one of these positions. They will provide you with the opportunity to contribute further to the activities of ECTN and play a role in the future activities of our association.

#### Program highlights

[Eurolecturer Academy](#) work group will host a panel discussion with experts and practitioners and engage the audience to discuss the benefits of a platform like Eurolecturer Academy.

[Image of chemistry](#) work group will discuss its activities, among which promotion of positive image of chemistry and better understanding of the role of chemistry in everyday life.

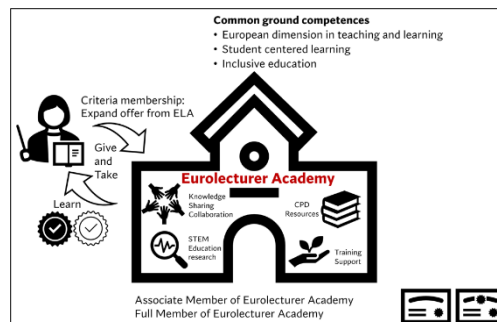

[Virtual Education Community Committee](#) will create a new working group to launch the renewal and the translations of the different EChemTest libraries.

[The Core Chemistry](#) work group will discuss the results of a survey conducted to get insight in the current chemistry curricula.

[Quality Standards in Teaching Committee](#) will host a panel session to discuss internationalization, competency-based education, technological and curriculum change, corporate-institution partnership.

#### Meet next generation chemists!

The welcome reception is organized and hosted by the Amsterdam Chemical Dispute (ACD), the study association for students of the Bachelor and the Master of Chemistry in Amsterdam. The ACD was founded on November 7, 1945. Since then, the association has been promoting the interests of students of chemistry and related studies. The ACD organizes both educational and social activities and you will have the opportunity to meet some of the members and learn about their activities.
