

Chemistry EUROLABEL®

EUROLABEL® *Expert Reimbursement*

February 2016: replaces all earlier versions

The common workload for the assessment of a **EUROLABEL®** application without site visit should be two days.

Reimbursement for the assessment team is based on the following lump sums:

Rapporteur	250 EUR/day
Member	175 EUR/day

Additional days should be calculated in case a site visit is necessary.

Rules for reimbursement of travel expenses for site visits are found in the ECTN Reimbursement Guidance. The ECTN Expenses Claim Form should be used.

Travel expenses can be claimed as soon as the trip is completed.

Reimbursement for the assessment should not be claimed before the Assessment Report is approved by the Administrative Council.
